Dave,

Thanks for sending this along.

Greg

David,

1. Exactly what we tried to tell you would happen.
2. The timing of the EPA letter certainly indicates the feds want to make a political issue out of this.
3. Obviously, nobody cares what the rest of us think. Now we're labeling those with a different opinion as "heroes"?
4. We tried over and over again to tell you at the EPA what would happen when the AP got ahold of this story, but obviously nobody listened. It was apparently time to make political hay!
5. MVEC is so upset, I am not sure what (if any) role we will play in the future. The question has to come up: "Why waste our time?" That's obviously what we have been doing! Nobody at the federal level ever really cared what we thought!
6. Not sure, but the next EPA "community" meeting in Yerington might include only YCAG and the Tribe. That's obviously the only "community" the EPA wants to hear from anyway.

Yup! This was a great, great early Christmas present for the rest of us in this community.

Jim
